# HOW IT LOOKS.

## The Contest for Governor Grows Hot,

## With Governor Chase Still in the Lead.

### The Opposition, However, Confident of His Defeat.

**What the Several Candidates for Governor and Their Friends Say —Other Offices.**

Notwithstanding the fact that yesterday was Sunday, state politicians and candidates worked as if there was no day of rest The hotel lobbies were alive with friends of the candidates for almost every office, and in many instances the candidate himself could be seen mixing with the throng, shaking hands with a friend and smilingly nodding to an acquaintance across the lobby.

Of the many people who were interested in the proceedings going on in the lobbies and headquarters, only a few were delegates, and those few were so wrapt up in the success of this or that candidate that it was hardly possible for them to discuss the outlook except through partial lips

The convention is made up of 1,420 delegates and it is estimated that about 200 were in the city last evening.

FIGHT FOR GOVERNOR.

Interest centered in the contest for governor and only now and then could one hear of the merits of the candidates for the other offices discussed. Everybody recognized the fact that it was to be a fight of Chase against the field, but while the friends of the preacher-governor were jubilant and confident of their strength and ability to win on the first ballot, the opposition was just as confident and claimed that Chase could not be nominated.

MAJOR STARR'S CANVASS.

Major G. W. Steele, of Marion, arrived in the city yesterday morning and opened up headquarters at the Randall. His canvass is one of the peculiar features of the campaign When he arrived in the city he was an avowed candidate and intended to remain in the contest from "end to end." The friends of Chase called upon him and after considerable urging secured a statement that as far as he was personally concerned, he was not a candidate, and would do nothing against the governor, but as to the action of his friends he could not promise. This may mean many things. It is a certainty that the Grant county delegation will cast a solid vote for him, and as the ex-congressman has many personal friends among the delegates who would like to see him nominated, he is certain of a very strong following on the first ballot This will keep him in the race in spite of himself, and if Chase is not nominated on the first or second ballot the Chase delegates would more than likely cast a large majority of their votes for Steele in return for his magnanimity in keeping out of the fight against him

There is no doubt whatever that the bee is buzzing in the major's bonnet, and he thinks the surest way to win is to follow the plan outlined above Keep your eye on Hon. G. W. Steele.

SHOCKNEY AND CHAMBERS.

The most open fight against Chase is being made by the Schockney and Chambers men The blows of the former are undoubtedly the most telling. In the senate two years ago Senator Shockney was recognized as the republican leader, while at the same time Chase, as lieutenant governor, was presiding over that body. During the session a bill, known as the liability law, was introduced at the request of railroad organizations in all parts of the state Senator Shockney championed the bill, and while Lieutenant Governor Chase made no fight against it, many railroaders claim that in the appointment of the committee to consider the bill he selected men who were known to be opposed to it This, the friends of Chase deny, and claim that inasmuch as the bill was killed before it reached the committee, it is unjust for anybody to guess what the action of the committee would have been. Nevertheless, numerous railroad men are keeping up the fight, and were on the ground yesterday and today strenuously working against the governor and booming Shockney.

Some of the railroad men take sides with Chase's friends and today a train-load of them arrived in his interests.

Both sides have issued circulars and they will be flaunted before the eyes of the delegates by the thousand.

The Chambers men are just as confident that Chase will be defeated and say that it would be a mistake to nominate him. While they will not give out their strength they claim to have a large following and say the governor will be surprised at the showing made by Chambers, who is backed by Ross Hawkins, Moses McLain and most of the officeholders throughout the state.

THE HUSTON BOOM.

The Huston boom is an unknown quantity, but there seems to be more anxiety in the Chase camp over the candidacy of the Connersville statesman, than over that of any of the others Messrs Claypool and Little, who have charge of this campaign, move quietly about the lobbies of the several hotels and pleasantly greet every delegate as he arrives They report a big sentiment in favor of the nomination of Mr Huston and say they are surprised at the strength he has developed among the delegates. Last evening one of them stated that there was now no doubt of Governor Chase's defeat and that Mr. Huston is the man who will be the beneficiary

ANTI-CHASE CONFERENCE.

One of the most important conferences of the campaign was held last night at the Randall hotel It was a conference of the anti Chase leaders They claimed to have advices from seventy out of the ninety-two counties and announced that at the very outside the governor's strength was 740 votes. A discussion arose as to the proper man to center on against Chase, but it was thought best to leave that to the draft of the convention unless there was some chance of the governor's nomination. A canvass of the delegates will be made today and another conference will be held tonight to decide on the proper course to pursue It is supposed that the opposition will unite on either Huston or Steele and oppose Shockney with the lieutenant governorship. Chambers is district attorney and certain of an office.

CONFIDENT CHASE MEN.

While the opposition are holding these conferences and scheming for Chase's defeat, the governor keeps on making an open fight and his friends claim he is certain of nomination His headquarters are in the parlors of the Wayne hotel, in charge of Major Joe Homan and Private Secretary Will Roberts, who arrived in the city yesterday afternoon. The headquarters were overcrowded last evening with friends of the preacher governor who came to tender their support, and were heartily greeted by Mr Roberts. A SENTINEL reporter called at the headquarters and had a short talk with the genial secretary.

"What are the prospects of the governor's nomination?" was asked

"He is certain to be nominated," replied Mr Roberts, "and that, too, on the first ballot. We challenge the opposition to unite on any man who can defeat him. The people are for Chase and the politicians who are opposed to him dare not beat him."

Other boomers around the headquarters are just as confident and if their claims are true nobody else, of course, is in it. But the battle is not over yet.

ALLEN COUNTY DELEGATION.

A meeting of the Allen county delegation was held yesterday afternoon in the law office of W. J. Vesey, chairman of the county central committee. The action to be taken in the convention was discussed and it was decided to cast a unanimous vote for F. J. Scholz, of Evansville, candidate for treasurer of state, and J. D. Ferreel, of Lagrange, candidate for attorney general. The vote on governor and the other officers will be divided. A poll of the delegation showed fourteen for Chase and nine opposed to him. On the auditorship it is understood a majority of the delegation favor Mr. J. W. Coons.

DISTRICT MEETINGS.

The delegates from the several congressional districts will meet at 8 o'clock this evening. They will select one member for each of the following committees, on rules and permanent organization, on credentials, on resolutions. They will also select one vice-president, one assistant secretary, one presidential elector, one contingent presidential elector.

The district meetings will be held at the following places: First—Worden & Morris' office, 34 East Berry street Second—Postmaster's room, government building. Third—Office of Morris, Bell, Barrett & Morris, corner Main and Clinton. Fourth—County commissioners' room, court room Fifth—United States judge's room, government building. Sixth—Morton club directors' room, Wayne and Calhoun streets Seventh—County circuit court room, court house Eighth—United States court room, government building. Ninth—Morton club hall, corner Calhoun and Wayne streets. Tenth—Morton club reception room, corner Calhoun and Wayne streets. Eleventh—United States pension office, government building Twelfth—United States clerk's office, government building Thirteenth—County superior court, court house

The secretaries of the respective district meetings will report the result of the same to Secretary Millikan, at the committee headquarters, at the Aveline hotel immediately on adjournment.

The committees selected by the district meetings will meet immediately on adjournment at the places named below. Committee on rules and permanent organization at room 64 Aveline hotel This committee will select two candidates for presidential electors at large. Committee on credentials at Col. R S Robertson's office' room 25 Bass block, Calhoun street, next to the Aveline hotel. Committee on resolutions at room 64 Aveline hotel.

THE SITUATION TODAY.

This morning there was scarcely any change in the situation The lobbies of the New Aveline, Wayne and Randall filled up rapidly as delegation after delegation arrived in the city

At 10 o'clock the Union City delegation arrived, about 150 strong, headed by a brass band. They came to boom Schockney for governor. They carried a transparency with a picture of Harrison on one side and Shockney on the other. A big banner bearing the inscription "Organized Labor for Shockney" was borne aloft by twenty strong men. They marched through the corridors of the New Aveline and Randall hotels and then proceeded to the Shockney headquarters in rooms 106, 107 and 108, Wayne hotel They materially assisted in strengthening the canvass of Mr. Shockney and are busily engaged now in pouring into the ears of the fast arriving delegates the advantages to be gained in the nomination of the Randolph county senator.

At noon the Marion club of Indianapolis arrived on a special train over the Lake Erie and Western They came here in the interests of Warwick H Ripley for reporter of the supreme court and John W. Coons and Ivan W. Walker for auditor of state. A number of Chase boomers were on the train —cold soldiers and railroad men.

TRIBUTE TO THE CANDIDATES.

Among the candidates for governor is Jas. A. Chase, who was born in Monroe county, New York, forty-six years ago When a lad his parents removed to Chicago, making the journey in a

JAS. A. CHASE.

covered wagon Young Chase qualified himself to teach in the public schools, and was at that occupation when the war broke out. He enlisted and served two years and four months in the Nineteenth Illinois. After the war he entered the ministry of the Christian church. In 1883 he became pastor of the Christian church at Danville In 1885 he was chosen department chaplain of the G. A. R., of Indiana, and the next year he was elected department commander. In 1886 he ran for congress in the Fifth district against C. C. Matson, and reduced the democratic majority from 1,000 to 523. In 1888 he was nominated and elected lieutenant-governor and when Governor Hovey died in November last he became the chief executive of Indiana.

Smiley N. Chambers, candidate for governor, spent the early years of his life on a farm in Knox county. In the summer of 1863 he enlisted in the One hundred-and-fifteenth Indiana Regiment, and was in the army continuously from that time until August, 1865 He graduated at college with the

honors of his class, in June, 1870 The following year he read law at St. Louis, and in the spring of 1872 he went to Vincennes and began the practice of law. That same year he was nominated by the republicans of Knox county as their candidate for the legislature, and with the remainder of the republican ticket he was defeated. In 1873 he formed a partnership for the practice of law with William H DeWolf, with whom he continued in business until the spring of 1889, when he was appointed by President Harrison United States attorney for the district of Indiana. He is a member of the G. A. R., of the order of Odd Fellows and is a 32° Mason. For many years he has been secretary of the board of trustees of Vincennes university, and has done much to build up that institution. Mr. Chambers is a man of commanding presence and genial disposition.

Theodore Shockney, of Union City, whose name will be presented as a can

didate for the nomination for governor, was born in Randolph county, this state, September 16, 1852. His parents died when he was but ten years old He had a common school education and began teaching in the public schools of the county at the age of seventeen. In 1872 he read law with P. Gray, afterwards governor of Indiana. In 1880 Mr Shockney was elected mayor of Union City, and in 1882 was elected a state representative from Randolph county. In 1888 he was elected joint senator for the counties of Delaware and Randolph

THE GOVERNORSHIP.

Never at a state convention were the delegates so much at sea as to the outcome of the fight for the governorship [illegible] the lead, there is no doubt of that, but there are at the very least six other statesmen who will receive votes on the first ballot, thus complicating the situation and making the nomination of any named man an uncertainty

This morning Governor Chase arrived from Columbia City and immediately took charge of his headquarters in the parlors of the Wayne hotel, where he is busily engaged in shaking hands with the arriving delegates.

"SO HOT AS OFF IT."

A SENTINEL reporter visited the governor at 11 o'clock this morning and found him taking a short rest after a long siege of hand shaking

"What does the governor think of his chances of nomination?"

"Haven't any doubt of it, what ever."

Mr. Starr, an earnest worker in the governor's cause, was approached and asked as to Chase's chances

"He is a better man today than he was last night; his chances are improving," was the reply to the scribe's question "All the different charges against him are being exploded as rapidly as they are sprung."

Mr Starr would not state whether he thought the nomination would be made on the first ballot, and asked not to be quoted on the question.

TALK WITH SHOCKNEY.

The reporter next called on Mr Shockney and put the following question:

"How are you impressed with the progress of your canvass, Mr Shockney."

"I am thoroughly satisfied"

In reply to a question as to Mr. Shockney's nomination, Mr. Ensign, editor of the Union City Eagle, said.

"Mr. Shockney's chances are good I don't think any man has as good an endorsement, or would poll as many votes; in fact, he would secure more votes than any other candidate mentioned, owing to the support of the labor organizations In the blue book he is favorably mentioned, while Governor Chase is attacked. Mr. Shockney has always been successful in his campaigns for nomination and election, and should he be defeated this time it will be the first defeat he ever met."

Mr. Charles W. Martin, a railroad fireman from Indianapolis, who is working for Mr. Shockney, said:

"We are working like beavers, and are not making a big demonstration, like the Chase men. We have the best poll of the state so far made, having received advices from every county in the state At the very outside Chase cannot command more than 460 votes, and I am certain the fight made by the railroaders against him will encompass his defeat A few railroad men are for him, a very few, but they are not in the train service, and support him the same as they would any other republican. Mr. Shockney's boom is growing, and will surprise his opponents."

CHAMBERS HOSTFUL.

A call at Smiley N. Chambers' headquarters, in the parlors of the Randall, found him in consultation with several of his supporters. He is being assisted in receiving visitors by Mrs Chambers Smiley referred the reporter to Mr. Ross Hawkins for any information desired When asked as to the outlook, he said:

"Pretty uncertain. Mr. Huston sent word to the Fayette county delegation that his name must not be presented to the convention, so the race lies between Messrs Chambers, Chase and Shockney, and one of these gentlemen will be nominated. There are several dark horses who could win easily, but they will not allow the use of their names, Byron K. Elliott, for instance, but he told me that under no circumstances would he be a candidate. I don't think there will be a nomination on the first or second ballot. Chambers is the strongest man and his canvass will grow."

HUSTON STILL IN IT.

At the New Aveline the reporter met Mr J H. Claypool, who has charge of Mr. Huston's interests.

"How about the reported withdrawal of Mr Huston's name?" was asked.

"He hasn't been withdrawn. Mr Huston has never been an avowed candidate for the office, but will accept the nomination if it comes to him without solicitation on his part. Our position is the same as it has been right along. He will be voted for on the first ballot We have been in communication with him this morning, only in a general way."

E. J. Roots, president of the Lincoln league of the Sixth district, said: "We are not antagonistic to Governor Chase, but this loyalty to Huston is an evidence of his strength in a certain event he would accept the nomination and we are maintaining the same position he would were he present.

JOHNSTONE, TOO.

Although, Hon. James T Johnstone is ostensibly a candidate for attorney general, Tim SENTINEL has it on the highest authority that he will be voted for for governor on the first ballot. The boom is being worked by some of the smoothest politicians in the state, who quietly claim that he is the man who will beat Chase

MINOR CANDIDATES.

The fight for the governorship so far overshadows everything else that only here and there can you hear the names of the candidates for the other offices mentioned. The contest for auditor of state between John W Coons and Ivan N. Walker is a warm one, however, with the chances in favor of the former The candidates for the various offices are keeping quiet, however, so as to maintain the confidence of the several candidates for the governorship.

RUMORS OF A COMBINATION

There was a meeting of the anti-Chase leaders this morning and an attempt to combine on one man to beat Chase failed. Another conference will be held late this afternoon, and an attempt will be made to unite on Judge Elliott. The judge arrived at 1:30 this afternoon and says he will not listen to the proposition James T Johnstone will be taken up

Will Roberts today announced that Governor Chase was friendly to Shockney for second place The Shockney leaders say they will fight to the end.

In the event of Chase's defeat Hendricks county will present the name of W. R. McClelland, of Danville, for secretary of state.

Other delegations will arrive this afternoon, one from Union City to boom Shockney, and another from Indianapolis to boom Chase.

The special train of the Marion club contained 311 persons A poll showed 311 for Chase, 7 for Huston, 8 for Shockney, 5 for Fairbanks, 6 for Chambers, 3 for Griffith, 2 for Mount, 2 for Steele.

There will be a meeting of the Republican League district managers in room 63, New Aveline hotel, this afternoon at 4 o'clock President W. I. Taylor and Secretary R. E. Mansfield will be present.

Last evening a train load of people arrived in the city, headed by ex-Congressman Frank B Posey. They came in the interest of F. J. Scholz, candidate for treasurer of state. After their arrival there was a preponderance of Scholz badges about the city. A number of the gentlemen were accompanied by their wives. Those who could not find quarters in the hotels were well taken care of by the room and reception committee

## NEEBE, FIELDEN AND SCHWAB.

### A Movement on Foot to Get the Trio Out of the Penitentiary.

Chicago, June 28.—A delegated convention consisting of representatives of 134 bodies—turner, trades unionists, fraternal, social, singing and labor societies—was held yesterday at Uhlich's hall and started the movement to secure the pardon of the imprisoned Chicago anarchists. The delegates had been appointed to the convention by their societies—some in response to a petition looking toward the pardon of Neebe, Fielden and Schwab, the anarchist-now confined in the penitentiary at Joliet A petition to the convention was read and referred to a committee of twenty one, and arrangements were made for the naming of sub-committees.

## WILL SETTLE.

### The Granite Quarrymen Effect a Settlement With the Strikers.

Boston, June 27. It appears that the Granite troubles will be settled on Tuesday, when the manufacturers executive committee will meet to consider a proposition made by the quarrymen's union last week. The proposition, which a great many manufacturers are willing to accept, provides for a four year compromise from March 1st, a nine hour day and an average price of twenty-three cents per hour, pay day to be on or before the 15th of each month

## The Cashier Has Off.

New York, N. Y., 27.—A despatch from Goshen states that the Goshen National bank has closed its doors Cashier Murray, who is also a county treasurer, did not make his appearance this morning and it is feared that he has absconded.

# THE FLOODS RECEDING.

### The Inhabitants of Submerged Cities Go Cheered by Falling Waters—The Dyke Cut by Four Men.

Chicago, June 27 A cheer that resounded the crooking of innumerable frogs went up from Dauphin park at noon today. The waters were subsiding and the first land had emerged from the bosom of the muddy lake under which the town had lain for forty-eight hours Soon little islands made their appearance, and it was evident that if the fall of the water continued as rapidly all day, the village would be comparatively out of water by night fall. The cutting or breaking of the Eighty-seventh street dyke had saved the Dauphin parkers, but the Grand Crossing people were about as badly off as ever Even in the latter place, however, the flood showed signs of receding, and there was universal joy in consequence. Half the population of the village is at home today, and men, women and children are wading around here foot trying to get household goods into safety or paddling around in boats in search of assistance Many families have deserted their homes altogether and gone to the city to live until the flood subsides. The scene from many points is a striking one. On every side stretches a great expanse of water dotted with boats, rafts and wreckage. A high wind from the west blows the duty water into foam and sends waves rolling into the first stories of houses. Women look out of second story windows and call directions to men who are wading around in the water below and the ambitious small boy is in his glory as he steers a washtub along with the swift current. The violence of the wind and the consequent strength of the current threatens to cause great destruction. Everywhere foundations are crumbling and walls being weakened, while as for sidewalks and everything movable they have long since disappeared. Altogether the situation, while no means as discouraging as that of last night or early this morning, is bad enough, and bright, sunshiny weather is the great hope of the unfortunate suburbanites.

Chicago, June 27.—There were rumors last night that the Eighty-seventh street dyke, the breaking of which flooded the suburban towns, Grand Crossing and Dauphin Park, had been cut. These rumors have been confirmed by one witness and an examination of the side lines of the fifty-foot torrent The son of J. B. Richmond, who lives near the dyke, saw four men, late Saturday night, cutting the dyke with picks and shovels He asked them what they were doing, and for an answer received a command to "get out" in a hurry, the order being emphasized, he declares, by a shotgun placed in direct line with his head The boy, thoroughly frightened, ran home, but told no one of the occurrence until his father returned from town at night He immediately notified Street Commissioner Kentzler, who early yesterday morning, with a force of workmen and a squad of police from Grand Crossing station, started out to repair the dyke and arrest the men who were seen cutting it.

## AN OLD DOCTOR DEAD.

### Sir William Aitken, the Famous Scotch Surgeon, Passes Away.

London, June 27.—Sir William Aitken, the noted surgeon and professor of pathology, is dead. He was born in Dundee, Scotland, April 2nd, 1825, his father being a surgeon of that place In 1848 he was selected as demonstrator of anatomy at the University of Glasgow and was also pathologist of the Glasgow Royal infirmary until April, 1855, when he volunteered for service in the army during the Crimean war. He was one of a commission appointed to investigate the nature of the disease from which the troops were suffering Dr. Aitken was a corresponding member of the Royal Imperial Society of Physicians of Vienna, of the Society of Medicine and Natural History at Dresden and the Imperial Society of Medicine at Constantinople In 1860 he was appointed a professor of pathology in the Army Medical school. He was knighted in 1887 He was the author of a "Medical History of the War with Russia" and various other works

## SHOCKED BY LIGHTNING.

### Eleven People More or Less Injured by the Fluid.

Boston, June 27.—About 11 o'clock last night two electric cars in adjoining separate parts of the city were struck either by lightning or by the motor current through burned out insulation, and several passengers were hurt in the rush to escape. Following is the list of injured. On car No 206, which was struck on Tremont street, between Concord and Worcester streets, Arthur Fee, aged thirty, severe concussion of left knee, Mrs. Nellie Fay, aged twenty five, head and face badly injured, Michael McGillheadly, aged thirty, right leg severely injured, Mrs Henry Humphrey, aged twenty five bruised on body arms and legs, Mrs Mare McCann, aged forty four, shocked, Kate Hollon, aged seventeen electric shock and bruised Annie Hollon, aged nineteen, Mary McGunnigle, aged seventeen, Mary J. McCann, aged nineteen, and Kate McCann, bruised. Kate Herrn, aged forty four back and hip seriously injured. In car 2068 which was struck in Hanover street, Boston proper Mrs Annie Colling, aged fifty, bruised and cut on face and forehead, right arm, Albert Carlton, aged twenty six severe cut over left eye and head badly bruised, Hattie Harding aged twenty four, severely injured in side Of the passengers in car No. 2046 eight were attended by neighboring physicians and taken to their homes in carriages and three were taken to the city hospital. The women passengers in the other car were sent to their homes in carriages by the company

## ORGANIZING.

### The Republican National Committee in Session—Harkness is Opposed by the President

Washington, June 27.—Although the republican national committee will meet at 12 o'clock for the purpose of organizing for the campaign, at 11 o'clock the situation was as seldom as it was last night. What the outcome will be no one seems to be able to tell, certainly no one does tell, and all who are asked about the matter frankly say they can not tell Conferences have been the order of the night and day, but they have resulted in nothing definite Before midnight Mr Michener, of Indiana, Mr Holbert, of New York, Mr Cheney, of New Hampshire, and Mr. Cogswell, of Massachusetts, went over to see the president When they reached the white house they found Secretary Elkins To these gentlemen, it is said, the president stated in language that could not be misunderstood that he did not desire Mr Clarkson to be made chairman Among the names mentioned by the president were those of Sewell, of New Jersey, Massey, of Delaware, and Campbell, of Illinois The Post this morning says "The president has requested Mr Cornelius N. Bliss, of New York, to act as treasurer of the committee and Mr. Bliss has agreed to act in that capacity. The president has been anxious to have a business man of high standing in this capacity in order to give confidence to the business men in New York and elsewhere who may be called upon to furnish the sinews of war, and no man can command this confidence so much as Mr. Bliss The president also has a pet scheme which, it is claimed, will be advocated in the committee and that is the appointment of an advisory committee, with headquarters in Washington, which will directly represent him in the campaign. It is claimed that the president, Secretary Foster and Secretary Elkins will be members of this committee and that Chairman Clarkson will be requested to act as a member of this advisory committee.

At 10 o'clock this morning Mr Clark-on had an interview with the president, lasting more than half an hour. At its conclusion the chairman was driven to the Arlington, where the committee was to meet at noon He said his interview with the president was pleasant. They talked, of course about the chairmanship and Mr. Clarkson said that he believed four names would go before the committee for chairman: Messrs Campbell, of Illinois, Sewell, of New Jersey, Massey, of Delaware, and Carter, of Montana. As for himself, Mr. Clarkson said he was not sure that he would accept the chairmanship or would take it under the conditions that exists. So far as can now be learned the probabilities were against the selection of any one of the gentlemen named by Mr Clarkson. Ex-Senator Sewell and Mr. Campbell have both declined to be considered in connection with the office on account of their business engagements. Mr Massey is not considered a probability because of his lack of acquaintance. Mr Carter's location is against him, it being conceded that an eastern man must be chosen. Ex-Governor Cheney, of New Hampshire, is spoken of but the opinion is held in well informed circles that Mr. Michener will finally be agreed upon for chairman and that despite his unwillingness to serve he will take the place and work with his customary zeal for the election of the candidate he was so largely instrumental in nominating.

## A DESPERATE FIGHT.

### Insurgents Attack Government Troops With Disastrous Results.

New York, June 27. A correspondent at Montevideo sends additional details of the fighting at Rivera, near Santa Anna. It appears that a force of 450 insurgents attacked the 200 federal troops there, but were repulsed after a desperate fight. Rebel Chief Vargas was killed in the midst of the fight The subordinate rebel officers rallied their men, however, and the government troops were finally forced back into the town, where they now are entrenched. There seems to be little doubt that the whole province is in a state of revolt Provisions are getting scarce and should the present state of affairs continue there will be great suffering throughout Matto Grosso.

## RECONCILIATION.

### The Estrangement of Mr. and Mrs. Drayton Nearing an End.

New York, June 27.—It is said by those in a position to know that strenuous efforts are making to effect a reconciliation between Mr and Mrs Drayton and that Mrs. Astor confidently expects it to be effected. This is assigned as a reason for her departure for Europe without her daughter. It is also whispered that her share in the estate, which would have been $5,000,000, will be paid her by her brother John Jacob Astor, who will even increase it to a round million Mrs. Drayton sails for Europe on July 6th, on the Teutonic, and it is said she will be prostrated by the sickness of her daughter, a circumstance which looks upon as a direct indication of an early reconciliation

Welcome all.

INDIANA will go democratic this year.

FORT WAYNE extends a welcome to all her guests.

THE republicans have the free-loan of the city this week

WHO will lead the republican hosts in the state this year?

JUNE is the month of roses, the month of marriages and the month of political conventions.

FORT WAYNE is democratic but she extends a cordial welcome to the visiting republican delegates.

SOME of the republican newspapers are finding fault with the first name of our candidate for vice president—Adlai Stevenson. If that's all the objection they have we will not worry. Stevenson is all right, and so is his first name.

THE prohibitionists have gotten up a new plan by which they are to sweep everything before them. A printed pledge is being circulated, in which the signer pledges himself to vote the prohibition ticket, when one million signatures are obtained.

AND now the story comes that Chauncey M. Depew has declined to step into the shoes lately occupied by James G. Blaine because it would involve a cut in salary from $50,000 to $8,000 per year, and because he believes he can serve his party better as a private citizen.

THE new double postal cards will be ready for distribution by July 4. They will constitute the only means yet provided for the payment in the international mail service of return postage to the sender of the communication. They will be issued in the form of a folder, the two sides of which are alike. The sender writes on one side and folds the card, leaving the inside blank for the answer. The cost will be four cents

WOMEN have not received collegiate and university honors as men have been doing for many years, but why not? There is a prospect that these honors, so long withheld from them, may more frequently come to them in the future. Miss Mary Augusta Scott has been elected a fellow of Yale university. She is also a graduate and master of arts of Vassar, has studied at Johns Hopkins, and was a student in honors at Cambridge university, England. She will now proceed to the degree of doctor of philosophy.

THE scarcity of flies has been remarked quite frequently this summer. This of itself should be a sufficient warning to every one to keep their premises clean and free from any decaying vegetation or other material which will aid in the breeding and spreading of contagious diseases. On all occasions of the visitation of cholera there has been a notable scarcity of flies, and with the present outbreak of this dread disease across the water, we may be visited by it soon. So a caution to clean up and keep clean should be heeded.

EVEN the meanest man may show at the end of life that he has a spark of humanity. One of the most successful miners on record died recently at Charlottenburg, Germany, having accumulated more than one-fourth million marks. The old man lived in the poorest part of the town in a miserable room, and during long period of illness he was nursed by a poor family living on the top floor of the house. He left all of his money to the family, giving a clergyman his will for safe keeping. Selfishness held its way as long as it possibly could.

INDIANA was first represented on a national presidential ticket in 1832, when George W. Julian was the candidate of the free soil democrats for vice president. The ticket received no electoral votes. Indiana's next representative was Schuyler Colfax, who was elected vice president along with Grant on a republican ticket in 1868. In 1872 no Indiana man was on any of the regular tickets. But after Mr. Greeley's death the democratic electoral votes were cast for Thomas A. Hendricks, and a few vice presidential votes were cast for George W. Julian. In 1876 Thomas A. Hendricks was the candidate for vice president on the democratic ticket. In 1880 William H. English played a similar role. In 1884 Thomas A. Hendricks resumed his place as second on the democratic ticket. In 1888 Indiana for the first time had the first place on a presidential ticket. Benjamin Harrison was placed in the White house. It is thus seen that in every presidential campaign since 1856 Indiana has had vital interest in the result.

### WE WILL ENTERTAIN THEM.

Indiana was admitted to the Union in the year 1816, and yet, for the first time in the history of her organization as a state a political convention for the nomination of state officers is being held outside of Indianapolis, the capital city of the state.

In departing from this rule Fort Wayne has been honored by the selection as the place for holding the republican state convention, which will convene here tomorrow. That our city feels proud of this honor there is no question. Our citizens are alive to the interests of the state and are showing their pride in the honor thus bestowed upon them, by their exertions for the comforts of the coming hosts. Our hotels are among the best to be found in the state, and are amply equipped to entertain large crowds. In addition to the hotels many private residences will be thrown open to our guests, and none will be found lacking in their well known ability as entertainers. There is no reason why these political conventions should always be held at the capital city of the state other cities are ready and willing to display their ability to care for such conventions, and we will make our guess greatly if, after the republican convention in this city, there is not a radical change made in the future as to the places of holding state conventions.

### BREWERS BEATEN.

**The Locals Walked Away With the Growler Saturday.**

An ex-oriole, named Cunningham, stood in the four by four square for the home team Saturday afternoon, loaded with curves to such an extent that the Brewers were not able to do anything with him. The little fellow chewed gum, showed his teeth and with a most complacent smile, put the ball over the marble block with the velocity and twistability of a Kansas cyclone. The home team won the game in the first inning. The first four men to face Ferson made home in a hurry. Then to make it more interesting they sent "Pop" Smith in the second and put a dead clincher on it by having Donahue come in on the sixth. As the Brewers were not able to do anything after having passed four of their men through the sweat board, the home team were not obliged to do the act in the ninth. The decisions of Umpire Guenther did not meet with general approval, and as a consequence there was a signal rehearsal of the days of Mike Frost, "Dackey" Hemp and "Uncle Andy." It is said, though, that time will aid him in his work, provided a pair of leather goggles be presented by some of his friends. The game in general was not as pretty as those played with the Indians, but while honors were even as regards base hits, and errors, while the balance of runs were in our favor, we need not kick.

Saturday's game is to be seen in the following score.

| | 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | R. |
|---|---|---|---|---|---|---|---|---|---|---|
| Fort Wayne | 4 | 1 | 0 | 0 | 0 | 1 | 0 | 0 | * | 6 |
| Milwaukee | 0 | 0 | 0 | 0 | 0 | 0 | 0 | 1 | 0 | 1 |

Earned runs—None. Two base hits—Sutcliff, Mintz. Double play—Widner to Roat. Batsmen hit—Ferson, 2, Cunningham, 1. Bases on balls—Off Widner, 2; Cunningham, 3. Wild pitches—Ferson, 1; Widner, 1. Struck out—By Cunningham, 3; Ferson, 1. Passed balls—Sutcliffe, 2, Donohue, 1. Umpire—Guenther. Time of game—1.50.

Yesterday's game was won by the brewers, through the kicking of Ward, which completely aired the umpire that he was willing to lay his chance for life in the hands of the out-of-town boys. It is a difficult matter to understand how a man like Ward can ever secure employment in any team. Such work as he done yesterday is ample to drive all patrons from the ball park. Spectators pay their money to see ball playing and not hear a dissertation in billingsgate. Wadsworth was a little weak, and in consequence the visitors made fourteen hits. Burrell, for the visitors, held the home team down to nine hits. Errors were two to one in favor of the home team and as a result the 1,200 visitors saw the Brewers carry away the game by a score of seven to six. Today will close the Milwaukee series, and there is no reason why the game should not drop to the home team. A large number of delegates will lay aside their politics long enough to witness the game.

### BIG GAMES.

The National league games Saturday were as follows:

**A Gallant Company Returns from Toronto With Honors.**

The Emmett commandery returned last evening from Toronto, Canada, where they attended the national convention of the Knights of St. John. The boys captured the first prize in the competitive drill and their friends here provided a magnificent reception for them. Upon the arrival of the train on the Nickle Plate road last night fire works were set off, the beautiful illuminations being kept up along the route until the commandery reached Library hall.

### SUMMER SERVICES.

**Inaugural Ceremonies at St. Peter's Church at Rome City.**

Yesterday an excursion train on the Grand Rapids road took into Rome City a round of several hundred people upon the occasion of services at the new St. Peter's church, inaugurating summer services. Father Duchaig of Avilla, assisted by Father Kersh, officiated at the ceremonies. The St. Paul Catholic choir, of this city, rendered several selections. Services will be held every Sunday during the summer.

John Danon, of Rome City, entertained a large party of his friends yesterday. Mr. Danon conducts a restaurant business in the town and prospers far better than he did in the days when he drove a street car in Fort Wayne. A report in some of the city papers that he had recently wedded was wholly without foundation.

The Red Stockings and the French towns, of this city, played a game of base ball at the stockyards yesterday afternoon. The game proved very interesting throughout, the players being comprised of some of the best amateur talent of the city. The game was umpired by C Brandon. The result was 6 to 0 in favor of the Red Stockings.

Will A. Glatte, a member of the Kendallville councilmanic board, telegraphs the police at this city to look out for three tramps traveling south on the Grand Rapids railroad. Friday night Mr Glatte was robbed at Rome City of a gold watch and chain, valued at $200, a pair of light colored pants and several dollars in money. Mr. Glatte's cottage at Sylvan lake was entered while he slept and the goods stolen.

The "Social Twelve" were delightfully entertained Saturday by Elsie Jackson at her suburban home in South Wayne. The time was pleasantly passed in games and music and at six a dainty luncheon was served under a canopy on the lawn. Those present were Marion and Nellie Baker, Clara Poole, Beulah and Vinnie Noffsger, Nellie Lawson, Jessie and May Fitch, Elinor Bond, Ethel Taylor, and Elsie and Helen Jackson.

They have been assigned quarters in the Rifles' armory in the White Lunk building. The division officers will arrive here from Winchester at 2.15 Tuesday afternoon, July 5. On Wednesday evening there will be one of the greatest parades in the city.

### DIXON AND JOHNSON.

**The Pugilists, Will Found Each Other Tonight.**

New York, June 27—At 5 o'clock this afternoon the weighing in of Geo Dixon, the colored champion featherweight of the world, and Fred Johnson, of England, will occur at the Coney Island athletic club at 7 o'clock tonight. The terms of the agreement, which was signed on the 20th inst., they require that the contest shall be twenty rounds or more and for a purse of $5,000, of which $400 goes to the loser. Johnson has been training at Coney Island ever since the articles were signed, the work being superintended by Ben Rouland, his manger, Bill Pitzmaur and Benny Murphy. Dixon, in accordance with his usual custom, has been training for only about three weeks, which he considers an ample period for getting into good shape. Tom O'Rourke, who has been training Dixon, says that whether the latter wins or loses tonight, he will match him against Johnnie Van Heest at 117 pounds, and will put up as much money on the side as Van's friends are willing to meet. As Van Heest has never been defeated, his backers are more than anxious to arrange a fight

### PROHIBITIONISTS.

**Their National Convention Will Result in Bidwell's Nomination.**

CINCINNATI, Ohio, June 27—Delegates to the prohibition national convention continue to swell the number already registered at the various hotels. The arrivals to date are the advance guards of the greater column which will make its appearance tomorrow. The drift of sentiment among the delegates whose ire seems to grow in favored Bidwell's nomination. As to Ohio her vote will go to Gideon T. Stewart on the first ballot. There is a probability that Bidwell will be nominated on the first ballot and a remote possibility only that the contest between Bidwell and Demorest may attain such warmth as to make a new man advisable.

Is Life Worth Living?

That depends upon the Liver. If the Liver is inactive the whole system is out of order. The breath is bad, digestion poor, head dull or aching, energy and hopefulness gone, the spirit is depressed, a heavy weight exists after eating, with general despondency and the blues. The Liver is the housekeeper of the health; and a harmless, simple remedy that acts like Nature, does not constipate afterwards or require constant taking, does not interfere with business or pleasure during its use, makes Simmons Liver Regulator a medical perfection.

I have tested its virtues personally, and know that for Dyspepsia, Biliousness and Headache, it is the best medicine the worldever saw. Have tried both other remedies before Simmons Liver Regulator, and find it the best by far—more than a monopoly pills, but the Regulator not only relieved but cured.

If there is anything in a name there is an employe of the railroad company in Logansport who is certainly in it this year That person is Harrison Reid, the watchman at the Third street crossing, and he is confidently expecting all kinds of good luck to attend him this year on account of his name. It is not stated whether or not his parents, with prophetic forethought, had the campaign of 1892 in view when they gave him his name.—Logansport Journal.

A NEW TIE PLATE AND BRACE.

William H. Phillips, of Philadelphia, has invented a brace for rails which he terms the "standard combination tie plate and brace," and which is intended to prevent the cutting of the rail into the tie and thereby spreading the rails or canting them over so as to wear on one side only. The combination of the brace and plate obviates the necessity of spiking the rail and brace separately, thereby saving two spikes and securing the service of the inside spike for holding the rail: it also prevents the rail from working up and down and latterly, thus making it impossible to wear the neck of the spike

The tie plate and brace is especially useful for curves and guard rails and also on bridges, whether the rail is laid on ties or on stringers; in the former case the ties are cut out long before their life is spent, and in the latter the lateral motion splits the stringer, by the use of the plate and brace this is entirely prevented, thus saving the great expense attending renewals at such points.

The locomotives and rolling stock generally of all progressive railroads in the United States will be found increased so in weight within the past few years, that the bare wooden tie is no longer able to withstand the pressure and wear even though they be of the best of white oak.

On roads where the traffic is heavy, the ties are renewed, not because they are decayed, but for the reason that rails have cut so deeply into them that in following up this wear under the rail the spikes are driven entirely through the tie and thus lose their efficiency for holding the rail safely in place. this is especially so at terminals

Mr. Phillips claims that his tie plate and brace will prevent the necessity of replacing ties before they are half worn out. He is a brother in-law to James Madden, the plumber, and left last Saturday for his home, after a pleasant visit here.

### It Saves the Children.

Mr. C. H. Shaven, Wellsville, Kan., says: "It is with pleasure that I speak of the good Chamberlain's Colic, Cholera and Diarrhœa Remedy has done my family during the last fourteen years. In the most obstinate cases of summer complaint and diarrhœa among my children, it acted as a charm, making it never necessary to call in a physician. I can truthfully say that in my judgement based on years of experience, there is not a medicine in the market that is its equal. For sale by druggists.

ANOTHER COLOSSAL MONOPOLY.

The Direct Result of High Protective Tariff.

We learn that arrangements are in course of preparation for consolidating the great western bituminous coal properties and the railroads therewith connected into a huge monopoly, fashioned after the anthracite combination recently consummated by the Reading company. The details of the scheme and the personnel of its promotion must remain for future ascertainment; but meantime the ultimate accomplishment of the project seems to admit of little doubt.

The really serious question suggested by this fact is whether the people of the United States consider that they have any interest in it and propose to have anything to say about it? Do they suppose they have any rights affected by the scheme; and, if so, are they prepared to assert them? or do they choose to wait supinely until these rights have been put beyond the avail of protest or law?

What is coal to us? The chief source of industrial power; the propelling force of our railroads and steamships; the almost exclusive agent for converting our ores and working our metals; the source of our artificial light; the comfort of our homes; the means of preparing our food; it is, in short, the one agent that, next to the vital air, is above all others essential to the infinite ramifications of civilization.

It is a manifest purpose in the constitution of things that whatever is most indispensable to human subsistence and comfort shall be most absolutely free; and it is as essential that coal should be free to common acquisition as that the supply of air should be unrestricted. No possible affront to the common rights of humanity could exceed the boldness and injustice this attempt to put the primary source of human welfare under the exclusive control of a mere handful of capital owners.

Viewed in all its bearings, this scheme, and equally the Reading combination, is one of the most flagrant attempts to constitute an overwhelming tyranny of wealth ever perpetrated. If monopoly is to be quietly permitted to thus fasten its grip upon the motive power of our industries and commerce, what may not be next attempted in the way of subjecting the national liberties and the national development to the will of a petty all-controlling class?

The question this now movement puts boldly and squarely before the people is neither more nor less than this—shall our industry and commerce be subjected to the unrestricted control of an absolute monopoly over such interest? Does the public common sense need to be informed that such control would be more arbitrary and more obtrusive to the development of this great country than the most despotic form of political government could possibly be? And having rejected despotic political institutions, are we prepared to tolerate a still more destructive despotism of wealth?—New York Commercial Bulletin.

### The Indianapolis Journal on Labor.

The tyranny of labor organizations over labor is far more absolute and galling than that of capital over labor. The real slavery of labor is that imposed by labor unions.—Journal, June 11, 1889.

Five dollars a week is low wages, but it is not "pauper labor" by a good deal. —Journal, June 18, 1889.

In Great Britain coal miners receive from $1.08 to $1.12 a day. The miner's lot is hard enough, but at the lowest wages ever paid or offered in the country the American miner can make a good deal more than the foreign miners work for all the time. There is no "pauper labor" in the United States. It is an insult to call any man a pauper laborer who can earn even $5 a week.—Journal, June 18, 1889.

Of the 328,000 divorces granted in the United States during the last twenty years, 316,000 were granted at the request of wives.

LIEUT. HETHERINGTON is acquitted. He shot Gower Robinson, an Englishman, who it is said was too attentive to Mrs. Hetherington. The Consular Court of Yokohama is of the opinion that this intimacy amounted to criminality, and further hold that the husband was justified in killing the man. This, then, seems to be the law as it is administered in courts and by juries: A wife is the property of the husband, and he may resent any assault or encroachment on his property. Indeed, this particular piece of property is so precious and of such high value that an assault upon it gives to the proprietor the right to slay the assailant, not only in a moment of uncontrollable passion, when the offender is caught in flagrante delicto, but long after, on circumstantial evidence, after due reflection, without warning, and in what under any other conditions would be regarded as a cowardly manner. This may be jury law, and even court law, but it isn't written law and it isn't civilization.

Krause's Headache Capsula - Warranted

Read This Letter From a Chicago Lady.

Chicago, 735 W. Adams St.,
April, 29, '91.

Mr. Norman Lichty, Des Moines, Ia.:

Dear Sir—A sample of KRAUSE'S HEADACHE CAPSULES was left in my husband's office a few days since, and as I am subject to headaches—neuralgic, nervous, and in fact every other kind—he thoughtfully brought the sample box home. The very next day I had a chance to try them and one capsule relieved me in less than half an hour. Next day I was attacked again, took another capsule with the same satisfactory result, in less than half an hour my head felt as well as ever, with no bad feeling as the after result. I have had three terrible headaches for twenty years and have tried every remedy I ever heard of, but nothing I have ever taken has cured or relieved me as quickly as KRAUSE'S HEADACHE CAPSULES. MRS. N. A. SKINNER.

You have my permission to use my name if any objections to your printing a portion of my letter? NO! If my testimony will induce any one who suffers with headache to buy your Capsules I will be glad.

## DISASTER AND DEATH.

**The Keystone Express Leaves the Track, Killing Fireman Charles Miller and Injuring Others.**

The magnificent Keystone express, No. 22, which has now been running between Chicago, and New York via the Pittsburg, Fort Wayne and Chicago railway, for two years, met with its first serious accident yesterday. As a result Fireman Charles Miller's mangled remains now lie in his late resident, No. 86 Lasalle street, while a half dozen other persons are more or less cut and bruised, the most seriously injured being Charles F. Stahl, the route mail agent

The accident was caused by the engine, No 124, jumping the track at a switch in the Valparaiso yards.

The train, in charge of Conductor George Bonter left Chicago at 10 P. scheduled time It was delayed a few minutes at the various railway crossings and at Hobart, thirty miles east of Chicago, Engineer Peter Riley threw open the throttle and endeavored to make up the three minutes lost time between that station and Wanatah, a distance of twenty miles, when the engines usually take water. When approaching the Valparaiso yards the engine jumped a frog while running at the rate of fifty miles an hour. Engineer Riley applied the air brake when he felt the engine drop from the rails, and sprang from the cab just as the engine plowed her way through a lot of empty cars standing on the side track. The engine was stripped of its cylinders, cab and other attachments and all that is visible above the mud is the bare boiler. It went over on the fireman's side.

It is not known how Fireman Miller got off his engine, but it is supposed he jumped. His lifeless body was found buried in the mud by the side of the track, after a search of some minutes One of the passengers discovered Miller's foot sticking out of the ground, all else was completely buried. There was nothing on him and what heavy weight it was which drove his body so deeply into the earth is a mystery

Two passenger coaches, a combination car and the express and mail coach left the track and were thrown on their sides and piled up promiscuously, injuring nine of the occupants. The list is as follows.

Conductor George Bonter, who was in the second car, gash one and a half inches long on left temple, body bruised in several places.

Brakeman C. Bonter, right thigh and breast badly bruised

Charles F. Stahl, mail clerk, limbs and body badly bruised.

George Woodward, baggage master, fingers of left hand mashed by falling trunks, cut on head and body bruised

L. O. Claycool, mail clerk, slight cut on face.

Engineer Peter Riley, head and face cut and bruised.

Herald Warner, a baby, scalp wound, not serious.

G. W. Pyle, left ankle sprained. Mr. Pyle lives at Mansfield, and continued on his homeward journey as far as Lima, where his wounds compelled him to leave the train and seek medical attendance.

Sarah Goldberg, of Chicago, face scratched and body bruised.

The injured were put in the sleepers which remained on the track and at 4 o'clock left for the east, arriving here at 6:41.

The remains of Fireman Miller were prepared for burial and brought to this city on No. 4 at 5 o'clock this morning and now lie at his late home, No. 86 Lasello street.

Charles Stahl and Engineer Pete Riley came in on No. 22 last night and are now at their homes. Neither is dangerously injured, though the wounds of the former are painful and will confine him to his bed several weeks.

Charles Miller leaves a wife and three children, the latter aged respectfully, six and four years and nine months. The scene at the house when the remains were brought in was heartrending. The parents of the deceased are living and are old and highly respected residents of Pleasant township, having resided there forty years. His brothers, F. X. Miller and Andrew Miller reside in this city, the former being a blacksmith in the Pittsburg shops and the latter is a fireman on the Fort Wayne road, whose run was being taken by Charles Miller when the terrible fate overtook him The deceased was a member of the Voluntary Relief Association of the Pennsylvania company, which will pay the widow the sum of $1,000 The funeral will be held Wednesday at 10 a. m. at the Catholic church at Sheldon, Rev. Father Koerdt officiating. The remains will be conveyed to Sheldon tomorrow afternoon at 4 o'clock via the "Monon" road.

### GLADSTONE'S CONDITION.

**A Few Rallies Caused by Flying Stones the Extent of His Injuries.**

LONDON, June 27. Mr. Gladstone telegraphs to the United Press correspondent as follows:

I am doing well I am under the care of Dr. Granger, of Chester. I hope to keep my engagements in the north

WM. E. GLADSTONE.

Since it became certain that the injury to Mr Gladstone was in all probability the result of heedlessness, the public excitement of the subject has calmed down considerable. The throwing of stones and other missiles at the gentlemen's carriages has grown to be a serious annoyance in London and other places It seems to be one way of expressing the antipathy of the lowest classes to wealth in any form and it is believed that Mr. Gladstone was pelted just as any other gentleman would have been pelted who might have happened to be passing at the time

### SPEEDY JUSTICE

**Is Meted Out to a Confessed Criminal by His Brother-in-Law.**

NEW YORK, June 27.—Max Clerget, aged eighteen, who has just pleaded guilty of criminal assault upon Sarah Divine, was shot and killed in the general sessions court this morning by the girl's brother, Edward Divine. The murderer was promptly arrested. Sarah Divine was Clerget's sister-in-law. The outrage was committed June 18th, at 530 East Fifteenth street. Clerget was arrested on the same day. Judge Martine was trying another case when Clerget was brought to the bar to plead to the indictment against him. The prisoner pleaded guilty and was being led away when Divine rushed forward and shot him dead.

### SIGNS AND PASSWORDS.

**A New Feature of the Order of Catholic Knights.**

TORONTO, Ont., June 27.—At a session of the Roman Catholic union of the Knights of St. John, a resolution was adopted instructing the supreme board of trustees to draw up a system of signs and passwords. The adoption of such a code has long been under discussion, but was opposed by the clergy. A petition, however, was recently circulated, and upon its presentation to Archbishop Walsh, supreme spiritual advisor of the order, was approved by him, he stating in a letter that such a code might be adopted provided such passwords and signs be made known to the competent ecclesiastical authority if asked for.

### A RIOT AT BRUSSELS.

**Socialists and Policemen Have a Bloody Encounter.**

BRUSSELS, June 27.—While some socialists were returning from an excursion last night, they became disorderly in the streets The police ordered them to disperse, but they refused to do so, and the police charged upon them. In the conflict that ensued the police were overpowered and their arms taken from them. A number of policemen were severly wounded by their own weapons in the hands of the rioters. The civic guards were called out and dispersed the mob. Several of the leaders of the rioters were arrested.
